

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Cancelled)

2. (Currently Amended) The ~~method~~ device according to Claim ~~1, characterized in that~~ 6, wherein said circuit includes a voltage is applied between the sensor (11) and the surface of an area of the printing machine said rubber blanket drum.

3. (Cancelled)

CA 6 4. (Currently Amended) The ~~method~~ device according to Claim ~~1, characterized in that~~ wherein a current flow is measured by the said sensor (11).

CA 6 5. (Currently Amended) The ~~method~~ device according to Claim ~~1, characterized in that a charged wire is used as a~~ wherein said sensor (11) is a charged wire in the vicinity of the surface of an area of the printing machine said rubber blanket drum.

6. (Currently Amended) A device for recognizing a print substrate in the vicinity of a sensor (11) within a printing machine, ~~characterized by~~ including a rubber blanket drum, comprising: at least one electric sensor (11) in the vicinity of a surface of an area within the printing machine, in area of said rubber blanket drum, upon which a print substrate should be recognized, and a circuit connected to said at least one electric sensor (11), said circuit ~~recognizing kept ready~~ so as to recognize a change in capacitance due to the print substrate being in the vicinity of ~~the~~ said at least one electric sensor.
